

Human BioMolecular Research Institute Scientific Summer Internship 2008

Spend your summer preparing for your future. Gain hands on experience under the supervision of reputable scientists inside the technically advanced labs of the Human BioMolecular Research Institute (HBRI). HBRI is a non-profit organization that is focused on the development of fundamental information useful to understand human diseases of the central nervous system. Included in the areas of study are: Alzheimer's disease and related neurodegenerative disorders, Parkinson's disease, depression, drug abuse, chronic pain and smoking cessation.

HBRI offers summer internships in Biology (Molecular and Cell), Chemistry and Analytical Chemistry open to motivated high school and college students interested in developing their scientific expertise.

QUALIFICATIONS: - Open to High school Juniors and Seniors as well as Undergraduates.
- Enrolled in advanced or AP Chemistry or Biology courses.
- Students must be able to provide their own transportation.
- Able to work 8-10 weeks full time during the summer.

*Out of town students are welcome to apply however students are responsible for their own housing arrangements.

HOW TO APPLY:

Email your resume, a list of 3 references (a minimum of one science teacher reference), along with a cover letter that briefly describes your career goals to ScienceEducation@hbri.org. We encourage those interested to check out our website www.hbri.org.

WHEN TO APPLY: We will begin accepting applications **March 1, 2008**
Submission deadline is **Friday, April 4, 2008.**

**** Internship positions are limited and may be filled before deadline.***
